Focus Area:

Eval. Notes:

Richard Catena Auto Wholesalers operates a vehicle auction and sale business. Richard Catena is the owner of the real property at this location. The business involves purchasing and selling vehicles (mostly pre-owned vehicles) that are sold to car dealerships via auction. Hundreds of vehicles are parked in a large parking area. There is no hazardous waste generated from the vehicle dealer operation. The hazardous waste that was previous generated from this location is from the previous property owner Raytheon under PI#G000034525, which includes groundwater treatment via an on-site vapor extraction system and thermal oxidizer. The LSRP is John Hernandez from Brennan Environmental in Summit. 908-918-1702. In the past, contaminated soils were excavated and removed. Disposal of these soils created hazardous waste. There is no longer any soils scheduled for removal and disposal. The last manifest generated from this facility in NJEMS is December 2015 at which time over 27,000 pounds of D039 (Tetrachloroethylene) waste was disposed. In calendar years 2014 and 2015, solvent listed F002, and D-listed wastes, D040 (Trichloroethylene) and D043 (Vinyl chloride) were shipped to Clean Earth of NJ. At this time, no further action is recommended.
